

Transform your digital agency with Microsoft Azure

Differentiate your agency with the latest technology from Microsoft and Tech Data.

Why digital agencies need Microsoft Azure

It's time for you, as a digital agency, to transform the way you work. Microsoft Azure is a growing collection of integrated cloud services that not only helps to differentiate your business, but also helps you to grow your sales and maximise profitability. Tech Data will guide you along your digital

transformation journey, so you can capitalise on all things cloud.

With Microsoft Azure, you can work in the multi-cloud, giving you more opportunities to work productively, securely and cost-effectively. This set of comprehensive services helps you to unlock continuous innovation, build intelligent apps, and get them to market faster. Its integrated tools will put your digital agency at the forefront of the competition.

What are the benefits of Microsoft Azure for digital agencies?

Application services

Microsoft Azure allows you to build and deploy your applications in the cloud, giving you the benefits of creativity, innovation and high performance. You can create web and mobile apps for any platform and any device, which will open multiple revenue streams for your agency. These applications can be highly available, completely compliant, and infinitely scalable.

Easy to get started

90% of Fortune 500 businesses already run on Microsoft Cloud. With no upfront commitments, you can leverage advanced solutions to support demanding workloads. We work with Microsoft and our partners to deliver cloud for all. There are 120,000 new Azure customer subscriptions per month, it's time for your agency to be one of them!

Consistent hybrid cloud

Build and deploy wherever you want with Azure, the only consistent hybrid cloud on the market. Connect data and apps in the cloud and on-premise for maximum portability and value from your existing investments. Thanks to open-source technology, your agency can work on its preferred operating systems, frameworks and database. Innovation and management are just a step away.

Why digital agencies should work with Tech Data

Digital agencies can build profitable new revenues streams by migrating to Microsoft Azure and working in the cloud. At Tech Data, we support you every step of the way so you can always innovate, develop new applications, and access the latest technologies. We help you to grow your sales,

remain competitive, and boost your profitability.

We're one of the world's largest distributors of technology, operating in more than 100 countries worldwide. We offer a valuable combination of cloud-based enablement, support and services to help digital agencies build success in the cloud. Our team of specialists can offer guidance, the latest training, and specific tools that will help you to achieve more.

Support designed especially for digital agencies

Take a look out how we help digital agencies to transform with Microsoft Azure.

Microsoft CSP programme

Our specialist Microsoft Cloud Solutions team will help you to understand the best path for you to take when moving to the cloud. We'll give you access to training and specialist resources, so you can easily manage your services. We support your business growth, whether you're ready to leap to Microsoft Azure or if you're just starting out with Office 365.

StreamOne Enterprise

We deliver unique tools to digital agencies like yours, so you can provision, bill and manage end user lifecycles in a way that suits your business. We help you to enter the cloud market quickly and easily, so you can benefit from new revenue streams immediately. We help you to sell subscription based cloud services, opening up flexibility for you and your customers.

Velocity programme

We're committed to going the extra mile to help digital agencies and their customers to transform. That's why we've created a programme designed to propel you to Microsoft Silver competency in Office 365, Azure or Enterprise Mobility and Security Suite. It provides technical, marketing, sales, and training benefits, so you can drive greater revenues.
